ONTIC SIGNS NEW LICENSE AGREEMENT WITH UTC AEROSPACE SYSTEMS – ELECTRIC POWER SYSTEMS

Ontic Engineering & Manufacturing, Inc. (Ontic), a BBA Aviation company and the aerospace industry's leading provider of 'Extended Life Solutions' for Original Equipment Manufacturer (OEM) legacy products, has licensed the manufacturing rights from the Electric Power Systems business segment of UTC Aerospace Systems (UTAS) for its Wound Motor Product Lines.

This is the latest addition to the substantial portfolio of products that Ontic supports for UTAS under license in a relationship that began over 40 years ago with Ontic's first license from Sundstrand Corporation in 1974.

"The Wound Motor product line aligns with Ontic's commitment to support non-core and legacy products," President and Managing Director of Ontic Gareth Hall said. Ontic has been leading the way in supporting maturing and legacy aerospace platforms and this new agreement allows us to expand that service for electronic products on these platforms. We value our relationship with UTC Aerospace Systems and are looking forward to continuing to work with them."

The license adds significant new military platform content to the Ontic portfolio of LRUs including CH-53, KC-135, CH-47, C-130, B-52, C-5, AV8B and F-16 aircrafts.

Ontic is a wholly owned subsidiary of BBA Aviation plc, with over 42 years of aerospace product manufacturing and aftermarket support experience. Ontic provides FAA, CAAS, CAAC, TCCA, DCA, EASA Part 21 and 145 OEM support, including new and serviceable spares and repairs for over 4,500 maturing and legacy aircraft parts. Its portfolio of products, licensed or acquired from major OEMs such as Honeywell, UTC Aerospace, Safran, Thales and GE Aviation, span all major aircraft systems in both civil and military markets. For more information, please visit www.ontic.com.

BBA Aviation plc is a market leading, global aviation support and aftermarket services provider, primarily focused on servicing the Business and General Aviation (B&GA) market. We support our customers through three principal businesses: **Signature Flight Support and Signature TECHNICAir™** which provide premium, full service flight and home base support including refuelling, ground handling, hangarage and MRO services through the world's largest fixed base operation (FBO) network for B&GA users with around 200 locations covering key destinations in North America, Europe, South America, Caribbean, Africa and Asia. **Ontic** is a leading provider of high-quality equipment and cost-effective solutions for the continuing support of maturing and legacy aerospace platforms with locations in the USA, Europe and Asia. **Engine Repair & Overhaul/Global Engine Services** is a leading independent engine service provider to global B&GA operators, the rotorcraft market and regional airline fleets with locations in the USA, Europe, South America, Asia and the Middle East.
