Ontic Singapore Facility Receives Certification from Thailand Department of Civil Aviation (DCA)

Ontic, a BBA Aviation company and the aerospace industry's leading provider of 'Extended Life Solutions' for OEM legacy products, recently announced certification by the Thailand Department of Civil Aviation (DCA) for its Singapore facility. This certification is in addition to EASA, CAAS, and CAAC with future plans to obtain DCA Malaysia and JCAB approvals.

"Local certifications are important to our customers. To this end, we have been purposefully pursuing certifications from countries throughout the region," President and Managing Director of Ontic Gareth Hall said. "Our Singapore facility is strategically-situated to offer fast turn-around times on MRO services to customers who operate fleets in the region. We look forward to expanding further into the Asia-Pacific market and supporting the aircraft in the region."

The Singapore location currently serves as both repair station and storefront for a variety of OEM-licensed and acquired products, including fuel measurement systems aboard the Boeing B737 Classic and B777, Fokker 50, 70 and 100, as well as the Airbus A300, A318, A319 and A320.

Ontic is attending MRO Asia-Pacific in Singapore. Stop by booth 615 and ask an Ontic expert about their capabilities in the MRO sector including complete overhauls, refurbished/serviceable parts, AOG, recertification, advance exchange and modifications.

Ontic is a wholly owned subsidiary of BBA Aviation plc, with over 40 years of aerospace product manufacturing and aftermarket support experience. Ontic provides FAA, CAAS, CAAC, EASA Part 21 and 145 OEM support, including new and serviceable spares and repairs for over 4,500 maturing aircraft parts. Its portfolio of products, licensed or acquired from major OEMs such as Honeywell, UTC Aerospace, Safran, Thales, and GE Aviation, span all major aircraft systems in both civil and military markets. For more information please visit www.ontic.com.

BBA Aviation plc is a leading global aviation services and aftermarket support provider. BBA Aviation's Flight Support businesses (Signature Flight Support and ASIG) provide specialist on-airport support services, including refueling and ground handling, to the owners and operators of private, business, military and commercial aircraft. BBA Aviation's Aftermarket Services businesses (Dallas Airmotive, H+S Aviation, International Turbine Service, W. H. Barrett Turbine Engine Company, International Governor Services and Ontic) are focused on the repair and overhaul of gas turbine engines and the manufacture and service of aerospace components, sub-systems and systems. BBA Aviation group companies operate from more than 200 individual locations on five continents. For more information, please visit www.bbaaviation.com.
